

PANNÓNIA HAJÓ

A DUNA GASZTRÓHAJÓJA

Safety Regulations

Our ship is regularly maintained, is annually screened for full inspection, has a technical permit issued by the authority.

Up to 50 people can travel on board.

In the event of a leakage or other accident, the ship may be abandoned, which is in any case a captain's sole decision.

The escape routes above the doors and at the junction of the corridors are indicated by green signs. These boards also illuminate in the event of a total power failure.

Our life jackets are placed in the left corridor and the storage cabinets on the gateway corridor with a total of 50 pieces. We have 4 lifebuoys for rescuing from water, 4 of which are located in the area accessible by passengers, 2 on the front terrace, and 2 on the back deck.

In case of fire, six extinguishers are placed on the deck in the wheelhouse, in the gangway corridor, on the left corridor, in the engine room and on the lower deck at the bar counter.

In case of emergency, please follow the instructions of the crew immediately.
